Electrical Engineer index
volume 46, january to december 1969

References are to month of issue and page number. The following subjects are grouped together under the appropriate headings —
☐ Articles, ☐ Authors, ☐ Book Reviews, ☐ Editorials, ☐ Power Stations.
Articles, Editorials and News Items are cross-indexed for ready reference in the Power Stations section with the initials 'A' article, 'E' editorial and 'N' news item.

ARTICLES

A total energy hotel Sep 35
Across the frozen frontier—Swiss Jul 30
Adjustments to Commonwealth standards of measurement of electrical quantities Apr 35
Advanced nuclear plant design concepts—Drakes Jun 30
Aluminium's role in the electrical industry May 30
Anglesea power station opened May 24
Broken bundle criterion for cheaper towers—Rikh Aug 28
BS 4070—A cloudy issue Apr 26
Container terminal powers distribution system—McKittrick Jul 26
Development of large turbo-generators—Morgan Mar 16
Electric arcs and circuit interruption Oct 32
Electric power without the turbine—Johns Feb 17
Electrical conductivity of three treated pole timbers—Clarke and Donaldson May 26
Electrical research in Britain Dec 32
Electrical units, engineers, and testing—Ferns Apr 36
ERA reports Jan 19
Expo Electric '69 Sep 32, Nov 34
Ferroresonance during single-phase switching of distribution transformers—Damstra Apr 32
Flexible transistors Mar 29
Gas turbines for electricity generation and power—Rizk Jul 28
Isolated phase busbars—Leonard Sep 38, Oct 28
kVAh and kVArh meters—Ferns Dec 28
Large pumped storage units in Japan May 28
Life on the ocean bed—Swiss Jun 32
Marseilles harbor tunnel lighting installation—Richard Jun 28
Mass producing electric motors—Stamm Mar 20
Melbourne public address system May 25
Mercury-arc valves and thyristors for high-voltage direct-current transmission—Gardner and Gozna Nov 36
Modern science in electrical and electronic engineering Aug 32
Modern trends in power system control and protection—Edgley Dec 24
Munmorah power station Dec 22
Munmorah turbine generator—Butcher Jan 10
Nomographs for enclosing wires—Caso Dec 34
Polycarbonate film capacitors—Trankle Feb 24
Power line stringing by helicopter Jan 13
Power station construction in Viet Nam Mar 31
Pricing, investment and economic theory—Harvey Jul 33
Progress in MHD power generation—George Apr 28, May 32
Recent developments with copper Nov 45
Research on parallel connected machines Aug 30
Sludge gas power installation Nov 32
Submersible pump installations—Richardson Oct 36
Superconduction—Christian and Milligan Jun 26
Sydney gas turbine conference Jul 35
Synchronous motors without sliprings—Bruderlink Aug 35
System design for motor starting—Robinson and Ho Feb 28, Mar 25
Testing full scale transmission towers—Box Sep 36
The modern ac kWh meter—Ferns Jan 14
Total energy yes or no? Mar 22, Apr 30
URD developments in Australia—Stewart Oct 24, Nov 40
Water Board operations centre Feb 21
210MVA substation for Sydney County Council Jun 23

BOOK REVIEWS

Analysis and Synthesis of Linear Active Networks—Mitra Aug 39
Analysis of Lumped Electrical Systems—Merriam Oct 39
Applied Mathematics for Electronics—Adams and Journigan Feb 34
Bibliography on Methods for the Measurement of Inhomogeneities in Semiconductors (1953-1967)—Schafft and Needham Mar 34
Designing with Linear Integrated Circuits—Eimbinder Sep 43
Direct Reading Two-Way Metric Conversion Tables Including Conversion to the International System (SI) Units—Biggs Dec 37
Electric Wiring Diagrams—Adley Sep 43
Electrical Installation Practice—Miller Sep 43
Electromagnetics and Plasmas—Wait Jan 27
Electricity Experiments for Children—Reuben Dec 35
Electrical Installation Work—Course A & Course B—Mee Jul 40
Electrical Installations Technology—Whitfield Apr 43
Electromechanical Dynamics I, II, III—Woodson and Melcher Oct 38
Elektronik und Radioelektrizitat—I (Electronics and Radio—I)—Thalmann Aug 39
Elements of Theoretical Magnetism—Krupicka and Sternberk Dec 36
Feedback Amplifiers and Oscillators—Sentz and Bartkowiak Apr 43
Fundamentals of Reliable Circuit Design—Xlander Mar 33
Grosse Dampfkraftwerke III Band, Teil B (Large Steam Power Stations, Vol III, Part B)—Schroder Dec 35
Introduction to Distributed Parameter Networks with Application to Integrated Circuits—Ghausi and Kelly Feb 34
Introductory Topological Analysis of Electrical Networks—Chan Aug 39
J & P Switchgear Book—Lythall Dec 36
Logical Design Manual—Zissos and Copperwhite Jan 27
Lumped Systems—Leon Jul 40
Mathematical Foundations of Network Analysis—Slepian Nov 49
Micropower Circuits—Meindl Sep 43
Outline of Pulse Circuits—Houpis and Lubelfeld Apr 43
Plastics for Electrical Insulation—Bruins Sep 44
Science Experiments and Amusements for Children—Vivian Dec 35
Servomechanisms—Stockdale Jul 40
Soft Ferrites. Properties and Applications—Snelling Dec 37
Solutions of Problems in Electrical Power Technology—Carpenter Jul 40
Sophisticated Signals and the Uncertainty Principle in Radar—Vakman Aug 39
Special Semiconductor Devices—Sowa and Toole Jul 39
The Crabtree Electrical Handbook Jan 27
The Education of Professional Engineers in Australia Feb 34
